

SAVE MONEY BY USING

Independent Labs

Using Independent Labs is Simple:

- 1.** Find the nearest lab. Quest Diagnostics and LabCorp operate in many central Illinois communities. Find your local lab at QuestDiagnostics.com or LabCorp.com. You can also make an online account to make appointments, pay bills, and view lab results.
- 2.** Request a lab provider. Ask your doctor for a paper copy of the test order which you will provide to the independent lab.
- 3.** Schedule your labs, or just drop by! Quest and LabCorp both offer easy online scheduling, though walk-ins are welcome.

That's it! Your results will be sent to your doctor just like normal.

WHY IS IT CHEAPER?

Independent labs are more cost effective because they don't need to support the functions of a large clinic or hospital group. They focus only on providing labs and diagnostics.
